

XiaoRi Zhang

Senior Web and Mobile App developer

I am a seasoned programmer with 8 years of extensive experience and 2 years of experience in academia. These experiences provided me with an opportunity to develop an understanding of what great software is and how to make it. I use the best tools, process, design patterns, clean code and solid principles of software development to ensure the best results for customers. I am really good at MERN/MEAN stack web development, Website maintainance and Several Web services like hosting and clouding.
